

INTENSE ITCHING BURNING OF SKIN

Trouble on Hands. Suffered Awfully. Could Not Put Hands in Water. Used Cuticura. In a Month Would Never Know Hands Were Sore.

71 Bessom St., Lynn, Mass.—"My trouble broke out with little pimples on my hands. They would fill with a watery substance and would break. After a while the whole backs and palms of my hands were inflamed. I suffered awfully with the itching and burning. I would scratch until my hands were red, the itching and burning were so intense. Would keep awake half the night. I could not put my hands in water for just as soon as I touched them I would almost go crazy. For one year and a half I could not do my work. "I tried everything anybody told me about. My hands were sore two years before I used the Cuticura Soap and Ointment. The first time I used them I felt relieved and the itching began to stop. In a month you would never know that my hands were ever sore." (Signed) Mrs. Susie M. Edson, Oct. 1, 1914.
